

Electronically controlled LIQUID FILLING MACHINE

THE ROTO-FILL SYSTEM

This advanced liquid filling principle offers the following superior operational features:

- * Electronic control of volume and flow-rate
- * 1:100 fill range without change parts
- * Repeatable fill accuracy of +/- 0,5%
- * Stainless steel and PTFE contact parts
- * Totally enclosed product lines
- * Clean, thread-free connections
- * Excellent C.I.P. characteristics
- * No dynamic 'O' ring seals
